

# Introduction

News Korea is a Korean-American media group that was established with the purpose of delivering news, marketing, and notifying the North Texas Korean-American community of cultural events.

As the most influential multi-media group in the community, News Korea provides the Korean-American community with a foundation upon which Korean-Americans can pursue successful and rich lives. News Korea serves as the bridge between the Korean-Americans and the surrounding community.

News Korea also strives to narrow the gap between the first and second generation of Korean-Americans. News Korea's main area of business is its weekly newspaper publication. News Korea's other primary area of business is its online media, including websites, mobile apps and webs. These media provide us with multiple channels to deliver news and information. News Korea also publishes annually the Texas Tour Guide and Business Directory.

Aside from above, News Korea also hosts cultural events, music concerts, and speakers. Online shopping, Korean TV, Korean medical network are other ways News Korea contributes to community enrichment.
